Subject: 5310 Available Vehicles

Good morning Andrew,

My name is Troy Flickinger and I want to introduce myself if you were not able to attend the Transit Workshop earlier this year. I am Transit's Program Manager for FTA's Section 5310 and will be your contact going forward as Janette Vomund will be taking on other responsibilities within Transit.

The other reason I am reaching out to you is about the vehicle(s) previously awarded under the 5310 Program in the St. Louis area. Transit has met great challenges obtaining vehicles since the Covid – 19 Pandemic. As we move forward, we are working with our vendors to provide the best possible service in getting you the vehicles you need to assist your clients. The vehicles that Transit currently have access to are the Wide Body Cutaways - Models GG, HH, and II. Please take a look at the attached file with all of the options and current pricing. If you feel that one of these vehicles would fit the agency's need and would be an option for the agency's fleet, please respond no later than **April 10, 2024** in order for Transit to move forward with a purchase order for the vehicle(s).

I look forward to hearing back from you and working to help you in any way possible.

Thank you !!
